

3-POINT HITCH SPRAYERS

Convenient, quiet and economical. These sprayers take advantage of your tractor's 3-point hitch for easy mounting and power take off system for convenient power source, eliminating auxiliary engines.

- Heavy duty steel frame with base, full tank saddle and built-in stand. Powder coated finish.
- Polyethylene tanks are available from 30-200 gallons with jet agitation, sump and full round design for better mixing and complete drainage.
- Economical roller pumps, reliable high pressure piston pumps, high volume centrifugal pumps and abrasion resistant diaphragm pumps are all available to fit your needs.

Spray booms for turf and bare ground applications.

Boomless nozzles are ideal for rough ground, pastures, prairie and right-of-way areas.

Hose and reels for hand gun spraying such as tree, orchard or fire fighting.
