

PICKUP TRUCK TANKS

Designed to fit full-size pickups, the 325 and 425 sizes have low profiles for better rear vision. They feature fill openings offset to the side of the tank for safety and easy access. A tough circular design adds strength. The 210 gallon tank fits both “mini” and full-size models.

VERTICAL STORAGE TANKS

Vertical storage tanks are most frequently used for bulk storage and nursing applications. Vertical tanks feature tie-down slots, built-in graduated gallonage indicators, an offset fill-well and a self-vented, slosh-proof lid. All vertical tanks are equipped with an outlet fitting and siphon tube.

From 65 to 12,000 gallons.
