

HYPRO LINE STRAINERS

Specifications

Strainers are available in 1/2", 3/4", 1", 1-1/4" and 1-1/2" NPT internal threads. A white bowl is standard and a clear polyamide bowl is optional.

The cap and bowl are made of nylon 6. (Designate the optional clear polyamide bowl by adding a "P" suffix to the model number.) Screens come in 20 or 50 mesh stainless steel. Buna-N or Viton gaskets are available.

Add "P" suffix to the part # for Clear polyamide bowl

TEEJET LINE STRAINERS

AA126ML

Features

- Strainer head and bowl are made of polypropylene with EPDM gasket.
- Screens are made of 304 stainless steel with color-coded polypropylene frames and are removable for cleaning
- Removeable cap and gasket for flush-out or self-cleaning operation
- Integral mounting provision allows the strainer to be attached to machine using M8 or 5/16" diameter bolts.
- Maximum operating pressure: 200

COMPACT LIQUID STRAINER

No. 122 Compact Liquid Strainer

The compact size of the 122 line strainer makes it well suited for turf sprayers. The 122 is constructed of polypropylene for excellent chemical resistance and is available in 1/2" or 3/4" (F) connections. The maximum pressure rating is 150 PSI.

Features:

- Glass reinforced polypropylene head and bowl.
- 304 stainless steel screen.
- Viton gasket standard.

How to order: Specify strainer no., mesh size.
Example: AA122-3/4-PP-50.

LINE STRAINERS

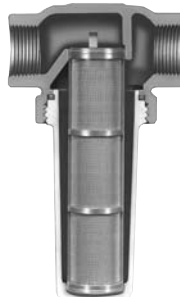

No. 124 Line Strainers

Strainer heads are available in polypropylene and aluminum. Bowl is either polypropylene or nylon. Each strainer includes stainless steel screen (with polypropylene frames on 3/4" to 1 1/2" sizes). Maximum temperatures up to 100°F. Viton o-ring supplied with 3/4" and 1" models. Buna-N gaskets supplied with 1 1/4" and 1 1/2" sizes. Viton optional.

How to order: Specify strainer number, mesh size, material.

Example: AA124A-1-PP-30

To order screen only, specify screen number.
Example: CP15941-1

Screen Mesh Openings		
Mesh Size	Color	Size of Opening
16	Gray	.045"
30	Yellow	.021"
50	Red	.011"
